

JOSZEF Study Program: courses

Incoming JOSZEF students take approximately 8 courses per semester. Each course is worth 2 credit hours.

Some courses are also attended by outgoing JOSZEF students, while others are offered exclusively for incoming JOSZEF students. **The range of electives allows JOSZEF students to select courses from the regular WU course catalog in either German or English**, giving them the opportunity to experience everyday academic life at our university.

We are constantly improving the JOSZEF course program, so it may differ slightly from semester to semester.

The following list is intended to give you an impression of the courses available:
